T3400 Series
Personal Computers

"Now you need even less space to get your big jobs done."

Imagine you have a slim, stylish, grey case in your hands. Its textured finish feels good to the touch, and its contemporary design is nice to look at. You take it to every meeting. It's with you when you travel. You even have it when you're at home. It does everything from prepare your documents, to calculate your budgets. In short, you'd be lost without it. These are the benefits of the Toshiba T3400 Series subnotebook. It's the first subnotebook computer with all the functionality of a much larger computer. The T3400 Series provides the performance and comforts you need to run your office from your briefcase. An SL Enhanced i486 processor and plenty of RAM, a 120 MB hard disk and a choice of TFT colour or Advanced STN monochrome screen – these are features you've been missing on most subnotebooks. The full-function keyboard, integrated MousePoint and PCMCIA 2.0 expansion slot are extra luxuries you won't want to be without. With the super-slim Toshiba T3400 in your hands, you have all you need to do great things.

**New** ➤ **The Toshiba 3-year International Warranty**

Take it from Toshiba

Capture all the colours of the rainbow, and then some, on the T3400 CT's 7.8" screen

The MousePoint – Toshiba's solution to your mouse problems – is built into the full-function 84-key keyboard

With the port replicator, you pop in and out of office peripherals as easy as you pop in and out of the office

Toshiba's built-in PCMCIA 2.0 slots make expansion options as easy as A-B-C

Small but perfectly formed

Despite its size, there's nothing left out of the Toshiba T3400. A high-speed SL Enhanced i486SX/33 processor for full 486 computing, up to 20 MB of memory and a large hard disk drive ensure that the T3400 offers everything a professional user needs. It even has a built-in PCMCIA slot for expansion options such as network cards, modems and removable hard disks. All this comes in a box that weighs less than two kilograms and is not much larger than a desk diary. So in terms of performance, the T3400 is a real heavyweight, without the weight of course.

You are the measure of its success

The T3400 is tailored to meet your needs. Toshiba has recognised that although technology can be miniaturised, the human hand is still the measure of a computer's ease of use. So the T3400 has a full-function keyboard for quick typing. There's also an integrated MousePoint, a new-concept pointing device, for easy cursor control and precise pointing when you're on the move. To complement the excellent keyboard ergonomics there's a choice of large, bright screens, available in 256 TFT colours on the T3400CT and in Advanced STN monochrome on the T3400. Both screens are sup-

ported by a graphics system that uses local-bus video and a powerful graphics accelerator to speed up Windows. These screens are an ideal medium to show off the machine's high-quality graphics.

Power on the road

Toshiba has designed the T3400 to go with you everywhere, and it has got the battery power to back it up. Part of the reason is the new high-powered, lightweight lithium ion battery - the latest in mobile energy technology. The TFT screen is also designed for low power consumption, and Toshiba's proven MaxTime™ Power Management system will keep your T3400 going when you have to keep going.

Good to be seen with

A personal computer says a lot about its user. When you need to make appearances, it's better to be seen with an elegant tool, rather than a bargain-basement offer. That's why the T3400 has been designed with good looks. It's a smart performer with a new-style, textured finish and smooth rounded features. This style reflects the built-in quality that's earned Toshiba an ISO 9002 seal of approval, quality that Toshiba backs up with its unique 3 Year International Warranty.

Product Specifications

Processor
SL Enhanced
Intel 486SX, 33 MHz,
3.3 volt technology,
8 KB cache on chip

Memory
Standard 4 MB RAM, expandable to 20 MB

Hard Disk
120 MB hard disk
(15 ms average access time)

Diskette Drive
External diskette drive

Display
T3400: 8.4 " monochrome
Advanced STN LCD
64 grey scales
T3400CT: 7.8" low-power,
active-matrix, TFT colour
LCD, 256 colours

Graphics Adaptor
SVGA/VGA compatible,
up to 1024 x 768 dot resolution
VESA local bus, graphics accelerator,
1 MB VRAM, dual display mode

Internal video modes
T3400: 640 x 480 x 16 grey scales
T3400CT: 640 x 480 x 256 colours
from a palette of up to 262,144

External Video Modes
640 x 480 x 16 colours
640 x 480 x 256 colours
800 x 600 x 256 colours
1024 x 768 x 256 colours
from a palette of up to 262,144

Keyboard
84 keys incorporating the pointing stick, standard layout, 12 function keys, 8 dedicated cursor keys, inlaid numeric keypad,
8 hot keys (T3400CT)
11 hot keys (T3400)

Interfaces
T3400/T3400CT: serial, parallel, FDD port, combined 72-pin port replicator connector / RGB port (via video plug)
Port replicator: serial, parallel, FDD port, PS/2 mouse, PS/ keyboard, 15V DC-in, RGB port

Expansion
1 x PCMCIA 2.0 Type II (5 mm), memory expansion (SIMMs)

Power Supply
Autosensing 100-240 V AC adaptor for world-wide usage

Battery
Removable lithium ion battery
T3400: up to 6 hrs battery life
T3400CT: up to 4.5 hrs battery life
recharge: 3 hrs off/8-10 hrs on

Size
T3400: 251 x 201 x 42 mm
(9.8" x 7.9" x 1.7")
T3400CT: 251 x 201 x 46 mm
(9.8" x 7.9" x 1.8")

Weight
T3400: 1.8 kg (4.1 lb.)
T3400CT: 2.0 kg (4.4 lb.)

Bundled software
MS Windows 3.1, DOS 6.0, PCMCIA Socket and Card services, screen drivers, BitBIT graphics accelerator, all pre-installed on the hard disk

Bundled hardware
FDD, port replicator, video plug

Special Features
Toshiba AutoResume Mode with AutoSave, MaxTime™ with Advanced Power Management, System Password, HotLock security, Kensington cable lock provision

Options
Carrying case, extra battery packs, battery charger, 4, 8 and 16 MB memory modules, car adaptor
