In Touch with Tomorrow
TOSHIBA

Take it from Toshiba. As we like to say, "more performance means something for everyone". The proof: our first entry-level notebook with Pentium® II processor: the Satellite 4000CDS/CDT.

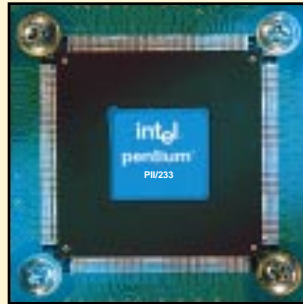

And what's more, it has everything you need to get off to a flying start: from integrated diskette and CD-ROM drives to a 4.1 billion byte hard disk and a 12.1" DSTN (CDS) or TFT (CDT) colour screen. Guaranteed quality, great price – but as usual only from your Toshiba Dealer.

A win/win situation: the double bonus of integrated diskette and CD-ROM drives.

Great looks: with a 12.1" DSTN (CDS) or TFT (CDT) screen you'll always be in the picture.

For a flying start: for the first time on a Toshiba entry-level notebook, a super-fast 233 MHz Pentium® II processor.

Good connections: all the vital in- and outputs are at the back of the notebook. There's even a USB port.
